The Supply House - January

- 1. Copper Prices Through December 2008
- 2. GRAFIK Systems Preset Lighting Controls from Lutron
- 3. DULUX EL
- 4. Occupancy Sensors from Watt Stopper
- 5. UNIFRAME
- 6. We are a Proud Supplier of: AFC Cable Systems

Hapy New Year!

Product Recall Philips Advance HID Ballast 71A6572001 has been recalled by the factory. If you buy your ballasts from Maurice, you have already been notified which orders apply to the recall. If you don't buy your ballasts from Maurice, WHY NOT? We stand behind all of our sales by representing only the best manufacturers like Philips Advance. No body likes recalls, but you can count on Maurice to follow thru when mistakes happen.

Responsible Recycling -- Show me your certificate! Carrying spent flourescent lamps (considered hazerdous waste) on a truck or van without a permit can get you in real trouble. The Maurice method of recycling will keep both you and us out of trouble **AND** the certificate certifying the recycling (for your file) guarantees that your good intentions were not wasted. There unfortunately are others promoting recycling that **DO NOT** send you the recycling certification. You should **DEMAND** to see the certificate from each shipment. Make them show you the certificate before you agree to their plan! Visit our website for [more informaiton](#).

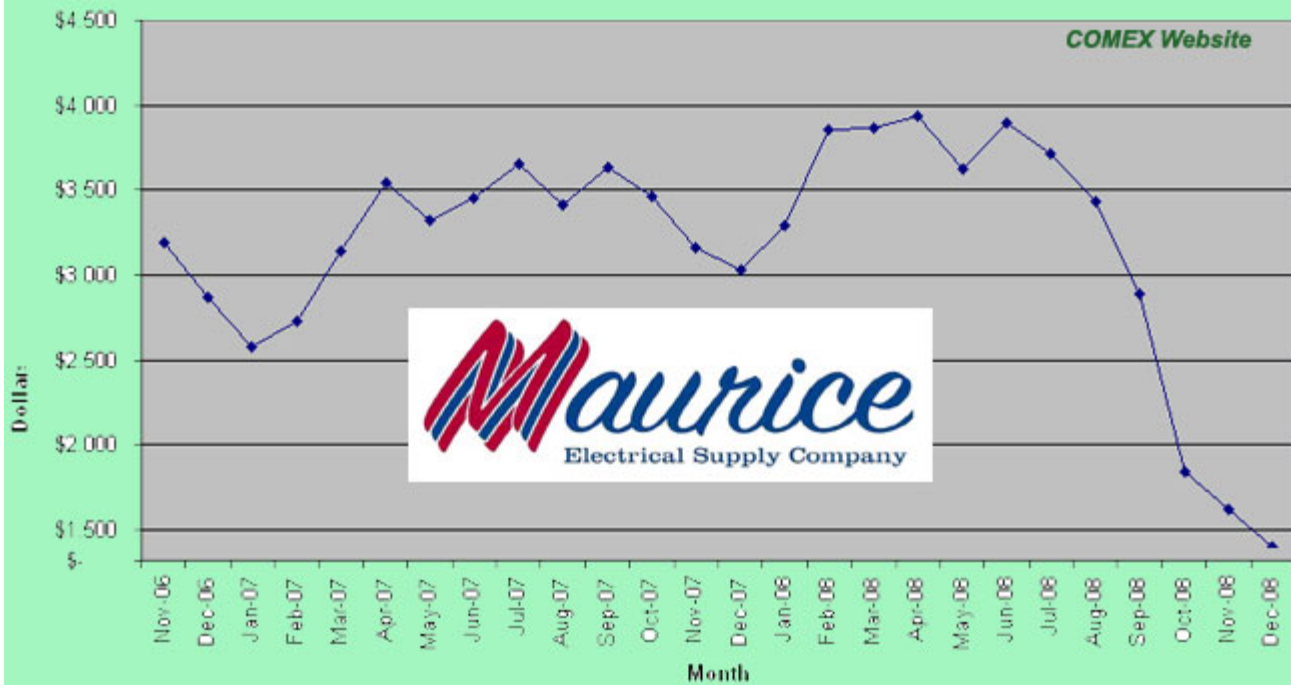

Emailing Invoices and Statements Have you signed up yet? Most of our customers are already getting their "paperwork" electronically. Make your New Year's Resolution to go paperless with email invoices. It's the GREEN thing to do. Email Sandra Charles, Credit Manager at sandra.charles@mauriceelectric.com to sign up today.

Thank you for your business!

Sincerely,

Liz Lauer
Marketing Manager

Copper Prices Through December 2008

GRAFIK Systems Preset Lighting Controls

Create functional spaces through various lighting combinations

- Switch from one lighting combination to another, just by pressing a button
- Create different lighting scenes within any space by controlling lighting zones
- Change lighting for one activity to next by fading from scene to scene at variable rates: from instantly to one hour
- Infrared wireless remote control puts lighting control in the hands of the user from any point in a room

DULUX EL

**OSRAM
SYLVANIA**

Classic Aline, Twist and Triple lamps may be used to replace ordinary incandescent lamps, while Mini Twist lamps with improved efficacy and a diminutive shape are ideal for smaller fixtures.

DULUX EL lamps are also available to replace incandescent reflector lamps. The modular Circline lamp is popular for use in table and floor lamps where the decorative G25 and G30 globe lamps may be used in chandeliers and vanity fixtures.

With excellent color rendition across a broad range of color temperature options, DULUX EL lamps are a brilliant alternative to incandescent and

halogen.

Features:

- Saves 75% in energy compared to similar lumen output incandescent lamps
- Variety of shapes and wattages to satisfy most applications
- 6000 – 10,000 hour average rated lamp life
- Flicker free starting

Occupancy Sensors from Watt Stopper

The Watt Stopper offers a comprehensive selection of occupancy sensors that meet the need of every application: classrooms, conference rooms, hospitals, warehouses, etc. They include a range of sensing technologies, such as passive infrared, ultrasonic, and dual technology. Options include automatic wall switches, ceiling and wall mount sensors, outdoor motion sensors, and sensors for special applications.

[More information](#)

UNI FRAME

Its unique design is tailor made for commercial installations. Tool free installation adjusts to any size grid ceiling and locks panel in place for the cleanest installations. It allows the use of new performance trims and most existing Lytecaster trims.
